

2002 Dodge Grand Caravan Minivan Wheelchair Modified

This van is fully equipped with a **VMI wheel chair modification unit**. It includes an electric under carriage hidden ramp, a driver chair that swivels 360 degrees, hand controls, and remote control key chain (2). Optional kneeling feature when ramp deployed. Perfect for someone with a physical disability. These alterations originally cost \$27,000. These modifications are in excellent working condition.

Very low kms—**only 77,000 kms**. Almost exclusively local mileage.

Sport model with roof rack. Remote starter. Double sliding side doors.

New tires, new windshield. It runs excellently (3.3 L, V6, automatic, FWD, gas). The body (PKG gold in color) is in very good condition. No wonder, the minivan was kept inside a garage both day and night.

For sale by owner. Only one owner for the life of the van. Taken very good care of, as we had planned to keep it for much longer. However, it is no longer needed.

Asking \$20,000.
